

**Try out a Math Counts Problem
of the Week:**

Sydney is told that the “value” of a word is determined by multiplying the letter-values of each letter in the word, and letter values are assigned such that $A = 1$, $B = 2$, $C = 3$, ..., $Y = 25$, $Z = 26$.

What is the value of the word
JULY?

Metcalfe Math Counts

FIRST MEETING

Oct. 27

Tuesdays from 7:15-7:50
Wednesdays from 3:00-4:00

Math Counts is an extra-curricular activity for 6th – 8th grade students who enjoy mathematically challenging problem solving. Meeting activities will prepare students, individually and as a team, for math topics related to local/state competitions. Meetings are in Mrs. Stalets' and Ms. Kane's classrooms.

**For more information:
Contact Mrs. Stalets or Ms. Kane**

There is a \$35.00 activity fee that will cover club registration fees and meeting materials.
