

Technology Acceptable Use Policy

The Laboratory Schools provide technology use, including Internet access, to students and teachers in order to further the educational aims of the school. Access is given as a privilege, not a right, and may be limited or denied by University personnel. Lab School administration, faculty and staff reserve the right to review and remove any student's files and data records used on the school technology/communication system, which violate the Terms and Conditions below.

Social Media

The school recognizes that social media can be used for instruction to connect students with the global community; however, the Terms of Service (TOS) of many social media tools eliminate the majority of Thomas Metcalf School's population from using these tools. Should teachers choose to use legally acceptable social media tools, a certified teacher will supervise students. When social media is used, normal school rules of etiquette and conduct spelled out in the School Handbook apply, including rules regarding bullying and harassment. The school reserves the right to limit or block student use of such sites at the discretion of the administration.

Additionally, we encourage all parents/guardians to be fully aware of their student's use of social media and to monitor what is acceptable for them to make use of while outside of school. The school may conduct an investigation or require a student to cooperate in an investigation if there is specific information about activity on the student's account on a social networking website that violates a school disciplinary rule or policy. In the course of an investigation, the student may be required to share the content that is reported in order to make a factual determination. However, the school may not request or require a student or his/her parent/guardian to provide a password or other related account information to gain access to the student's account or profile on a social networking website or demand access in any manner to a student's account or profile on a social networking website.

Consequences for violations

Students who violate the Acceptable Use Policy may lose their account privileges at the discretion of the administration. The administration will determine the length of time for which privileges are lost on an individual basis. Further disciplinary action including, but not limited to,

detentions, suspensions, expulsions and police notification will be issued by the administration as deemed necessary.

Warranties

The school makes no warranties of any kind, whether expressed or implied, regarding the use of computers, the University network, the Internet, or the accuracy, correctness, completeness, or reliability of any information, files, or software. The school will not be responsible for any damages for any of the foregoing, including loss of data, non-deliveries, missed-deliveries, or service interruptions, whether caused by its negligence, user errors or omissions, or other defects. Use of any information obtained via the Internet is at the user's own risk. The school and University specifically deny any responsibility for the accuracy or quality of information obtained through use of the University network or the Internet.
